## The Canton Public Schools are pleased to offer *Summer Enrichment 2018!*

Summer Enrichment 2018 will be offering a new form of programs. We hope to create a summertime adventure of discovery, fun, and learning that will build knowledge and enrich your child.

The goal of Summer Enrichment is to encourage children to explore new skills, talents, and interests as well as maintain and sharpen academic skills, boost academic confidence, and reinforce the value of education. The programs are self-funding. The cost of each program is set to cover the cost of the teacher and the materials.

You will be sending your child to a fun, safe, educational program.

## Creative Writing and Reading for Grades 4-6

Are you one of those people who thinks of reading and writing as fun? As something you actually choose to do that makes you ever so happy? ME TOO! Come join me this summer for a week of reading and writing:

- In reading we will put together an author study. The next best thing to meeting a favorite author is reading his or her books and developing theories based on the writing!
- If you still love read aloud, spend some time listening to a short novel I discovered this year that really touched my heart. Discover and talk about the author's craft and do some sketching in connection with the text.
- Plan a "summerish" writing project and take it all the way to illustration and publication! When I think of summer writing, I think of postcards, travel brochures, and letters (yes, letters rather than emails!).....writing you don't often get to do during the school year.

If you will miss turning and talking to a reading club, planning and crafting a piece of writing and getting lost in the world of a read aloud, join me. I think we will have a lovely week together!
